

THE MANAGEMENT CONSULTANCY PROJECT

Contents

- 1 Setting a Career Compass: Management Consultancies
- 2 Developing Client-Consultant Relationships

Summary

Management consultancy is a commonly sought work path: an excellent academic record, an adaptable attitude, and an appetite for diligent work is what it takes in order to be able to work across organisations and to comprehend a range of organisational profiles.

The report sheds light on the profession of the business consultant and attempts to draw the picture of the recruitment process, the tasks and projects a consultant undertakes, and the benefits of such a career path; gender and other intertwining aspects are also explored and streamlined. Additionally, it sets the foundations of creating a trusting and reliable relationship with clients and other stakeholders.
